Subject Re: Libby OU3

1100465 - R8 SDMS

Dear Jill,

We maintain a webpage where we post technical documents for the Libby OU3 project. The OU3 webpage can be accessed via the following link, user name and password:

<http://www.newfields.com/dl/libby/>
user name: libby
password: newfields

The data collected during the Phase I RI can be found in the Phase II Sampling and Analysis Plans (SAPs) - there are 3 of them, A, B, and C. The data from Phase II is still undergoing validation but summaries can be found in the draft Phase III SAP under the "documents for review" section.

We're currently working on the final Phase III SAP and I hope to have that document finalized by mid-May. It will include the data that has been validated. Feel free to check the webpage then if you'd like.

I'm not sure what you have in mind when you say you're going to scan the data but perhaps it will be clear when you can actually see it. I'm sure you'll figure out the best way to proceed once you see the nature of the data we have so far.

Thanks for your interest and I hope you'll check the webpage for updates. We keep most all of the technical information there.

Sincerely,

Bonnie Lavelle

Subject Libby OU3

Hi Bonnie,

Thanks for taking the time last Thursday to explain the work that's been done on OU3 in Libby. I understand that the Phase I and Phase II sampling is complete and available. I would like to scan over the data just to ensure that we aren't missing any big public health issues by waiting until the Phase III

activity-based sample results are available to do an "official" addendum to the public health assessment for Libby. If you could let me know how I can access that data I would appreciate it. We might document the fact that we scanned the Phase I and II data with a letter to you, so we will have it if anyone asks us about the status of our addendum.

If you have any questions or concerns with this plan, please feel free to give me, Chris, or Dan a call. Thanks again!

Jill
